

<Taking a Closer Look/>

Name: Giada Castelli

Date: 01/22/2023

Choose one of your favorite hobbies or free-time activities. Find **three** different websites about this topic and answer the following questions about each one. Pick a variety of websites (for example, try to avoid using three blogs, or three news websites).

Keep this worksheet in a convenient location. It will be referenced later in the course as you learn more about web design and begin making your own webpages.

Website 1

1. What is the website address (URL)?

<https://www.britannica.com/sports/swimming-sport>

2. What are your favorite things about this website and why?

Some things I like about this website is it has lots of pictures and also links to articles about similar topics.

3. What don't you like about this website?

Some things I don't like is that its mostly just black and white not a lot of color. It also has a lot of paragraphs rather than bullet points.

4. What types of elements are used?

Used on this website: Header, Links, Images, Logo, and paragraphs.

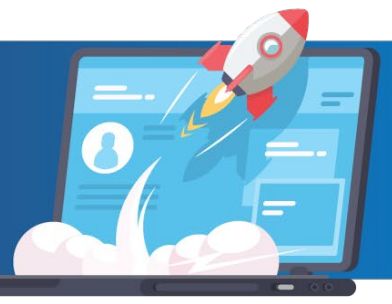

5. Do you think the balance of elements used is appropriate for the material?

The balance of elements is appropriate for the material since it's an informational website.

6. If you made this website, what is at least one thing you would do differently?

I would probably condense the information into bulleted lists and maybe add some color.

<Taking a Closer Look/>

Website 2

1. What is the website address (URL)?

<https://www.swimmingworldmagazine.com/>

2. What are your favorite things about this website and why?

My favorite things about this website are the rotating pictures, the headlines, and how bright and colorful it is. I also like how all of the ads are related to swimming.

3. What don't you like about this website?

I don't like that the website is very busy.

4. What types of elements are used?

The elements that are used are, logo, headers, navigation, and images.

5. Do you think the balance of elements used is appropriate for the material?

The balance of elements used is appropriate for the material because its a news website so they have lots of news articles.

6. If you made this website, what is at least one thing you would do differently?

I would probably make it less busy having the pictures more spread out.
